Dau, K., B. Etkin and D. Surry: Aerodynamics of a Rectangular Wing with a Peripheral Jet for Air Cushion Takeoff and Landing	61
Davy, M. C. W.: The Design of Low Density Airframe Structures	75
Daw, D. F.: The NAE Airborne Flight Simulators	97
Design of Low Density Airframe Structures, The: M. C. W. Davy	75
Development of the 23KS20000 Motor for the Black Brant IIB Vehicle: F. Jackson	377
Douglas, L. L., and J. J. Schneider: Present and Future Roles of the Helicopter	283
Drummond, A. M.: Operating Boundaries for Steady Hypersonic Flight on a Minor Circle	1
Dynamics of Aerospace Vehicles — A Quarter Century of Change and Two Current Problems: B. Etkin	264

E

Editorial: Prospectus Aeronauticus — 1965: J. L. Orr	169
Electromagnetic Angular Momentum, The Possibility of Stabilizing a Space Vehicle Using: F. S. Chute and G. B. Walker	219
Elliott, D. A., and C. R. Schreiber: Improving the Stability of Hovering Aircraft	79
Engineer in the RCAF, The Role of an: C. R. Thompson	193
Etkin, B., D. Surry and K. Dau: Aerodynamics of a Rectangular Wing with a Peripheral Jet for Air Cushion Takeoff and Landing	61
Etkin, B.: Dynamics of Aerospace Vehicles — A Quarter Century of Change and Two Current Problems	264

F

Flight Research Using a V/STOL Simulator: D. M. McGregor	103
Flutter, Notes on Propeller Whirl: K. E. Baker, R. Smith and K. W. Toulson	305
Fowler, R.: Investigations of the Steep-Gradient Landing Manoeuvre Employing Modulated Reverse Jet Thrust	39

G

Garland, D. B.: Jet-Flap Thrust Recovery: Its History and Experimental Realization	143
--	-----

H

Haney, W. L.: The Inarticulate Canadian HARP, Orbit Injection Control for: H. A. Raymond	153
Helicopter, Present and Future Roles of the: L. L. Douglas and J. J. Schneider	283
Houle, A. U.: Supersonic Transport or a More Acceptable Time-Saver	33, 161
Hovering Aircraft, Improving the Stability of: D. A. Elliott and C. R. Schreiber	79
Howell, A. B.: Aircraft Unserviceability Cost Analysis — An RCAF Case Study	297
Howell, A. B.: Unserviceability Analysis	335

I

Improvements in Longitudinal Stability and Control During the Landing Approach of STOL Aircraft: M. Brenckmann	111
--	-----

Improving the Stability of Hovering Aircraft: D. A. Elliott and C. R. Schreiber	79
Investigation of Aircraft Loads Developed During Landings on Rough Terrain, An: F. C. Allen and L. B. Mosby	43
Investigation of the Steep-Gradient Landing Manoeuvre Employing Modulated Reverse Jet Thrust: R. Fowler	39

J

Jackson, F.: Development of the 23KS20000 Motor for the Black Brant IIB Vehicle	377
Jet-Flap Thrust Recovery: Its History and Experimental Realization: D. B. Garland	143

L

Landing Approach of STOL Aircraft, Improvements in Longitudinal Stability and Control During: M. Brenckmann	111
Landing Manoeuvre Employing Modulated Reverse Jet Thrust, Investigations of the Steep-Gradient: R. Fowler	39
Landings on Rough Terrain, An Investigation of Aircraft Loads Developed During: F. C. Allen and L. B. Mosby	43
Low Density Airframe Structures, The Design of: M. C. W. Davy	75

M

Material Development, Creation of Polymeric Structures for Space: S. DasGupta	133
Matrix Force Method ("The Rank Technique"), Automatic Selection of Redundancies in the: J. Robinson	9
McGregor, D. M.: Flight Research Using a V/STOL Simulator	103
Modi, V. J.: Vibration of a Cylinder with Temperature Gradient Across the Thickness	227
Molson, K. M.: Some Historical Notes on the Development of the Variable Pitch Propeller	177
Morris, E. P.: A Pulse Technique for the Evaluation of Combustion Instability in Solid Propellant Rocket Motors	329
Mosby, L. B., and F. C. Allen: An Investigation of Aircraft Loads Developed During Landings on Rough Terrain	43
Motor for the Black Brant IIB Vehicle, Development of the 23KS20000: F. Jackson	377

N

NAE Airborne Flight Simulators, The: D. F. Daw	97
North, H. E. T.: Aerial Transfer of Passengers	161
Notes on Propeller Whirl Flutter: K. E. Baker, R. Smith and K. W. Toulson	305
Notices to Aircraft Maintenance Engineers and Aircraft Owners	87, 237

O

Okapuu, U.: Some Experiments on Viscous Damping of Whirling, Simply Supported Shafts	171
Operating Boundaries for Steady Hypersonic Flight on a Minor Circle: A. M. Drummond	1
Orbit Injection Control for HARP: H. A. Raymond	153

	PAGE		PAGE
P		T	
Parkinson, G. V.: Views on Fluid Mechanics and Aerodynamics for Aerospace Engineering — A Report on the Symposium	385	Smith, R., K. W. Toulson and K. E. Baker: Notes on Propeller Whirl Flutter	305
Phillips, F. C.: V/STOL Pitfalls and Payoffs	207	Some Experiments on Viscous Damping of Whirling, Simply Supported Shafts: U. Okapuu	171
Polymeric Structures for Space Material Development, Creation of: S. DasGupta	133	Some Historical Notes on the Development of the Variable Pitch Propeller: K. M. Molson	177
Possibility of Stabilizing a Space Vehicle Using Electromagnetic Angular Momentum, The: F. S. Chute and G. B. Walker	219	Stability and Control During the Landing Approach of STOL Aircraft, Improvements in Longitudinal: M. Brenckmann	111
Present and Future Roles of the Helicopter: L. L. Douglas and J. J. Schneider	283	Stability of Hovering Aircraft, Improving the: D. A. Elliott and C. R. Schreiber	79
Propeller, Some Historical Notes on the Development of the Variable Pitch: K. M. Molson	177	Stonehill, B. C., I. J. Billington and W. D. Smillie: Shaft Seals for Liquid Metal Applications in a Space Environment	347
Propeller Turbines Compared with Other Powerplants in Low Speed Flight Applications, Small: R. M. Sachs	13	Structures, The Design of Low Density Airframe: M. C. W. Davy	75
Propeller Whirl Flutter, Notes on: K. E. Baker, R. Smith and K. W. Toulson	305	Supersonic Transport, The: G. M. Bain	319
Pulse Technique for the Evaluation of Combustion Instability in Solid Propellant Rocket Motors, A: E. P. Morris	329	Supersonic Transport or a More Acceptable Time-Saver: A. U. Houle	33, 161
R		Surry, D., K. Dau and B. Etkin: Aerodynamics of a Rectangular Wing with a Peripheral Jet for Air Cushion Takeoff and Landing	61
Raymond, H. A.: Orbit Injection Control for HARP	153	U	
Reverse Jet Thrust, Investigations of the Steep-Gradient Landing Manoeuvre Employing Modulated: R. Fowler	39	Technical Forum:	
Robinson, J.: Automatic Selection of Redundancies in the Matrix Force Method ("The Rank Technique")	9	Aerial Transfer of Passengers: H. E. T. North	
Rocket Motors, A Pulse Technique for the Evaluation of Combustion Instability in Solid Propellant: E. P. Morris	329	Inarticulate Canadian, The: W. L. Haney	
Role of the Engineer in the RCAF, The: C. R. Thompson	193	Thompson, C. R.: The Role of an Engineer in the RCAF
